

## Oil Sands Monitoring (OSM)

### 2016-2017 PROJECT PLAN SUMMARY

<b>Project Name:</b>	<b>PA1-1-1 Program Administration-ECCC</b>
<b>Type of Project:</b>	
<b>Delivery Agent:</b>	Environment and Climate Change Canada
<b>Project Contact:</b>	Jennifer Vincent (ECCC) - jennifer.vincent@canada.ca
<b>Budget:</b>	\$ 500,000

#### **Project Description:**

The Environment and Climate Change Canada (ECCC) Oil Sands Secretariat is responsible for implementing the decisions of the co-chairs; for the coordination, administration and delivery of the 2016/17 Oil Sands Monitoring (OSM) activities as outlined in the approved work plans. The secretariat directly supports ECCC's Assistant Deputy Minister of Science and Technology and Director General of Water Science and Technology to deliver ECCC's commitments as the Federal-lead responsible for co-managing all aspects of oil sands monitoring jointly with Alberta Environment and Parks (AEP).

#### **Project Objectives:**

To support the delivery of ministerial commitments made by the governments of Canada and Alberta to put into place cumulative environmental effects monitoring of oil sands which supports evidence-based decisions on oil sands resource development.

#### **Key Outcomes:**

Program coordination, operations support, program management system implementation and support for the 2016/17 monitoring program.
